Hi Brandon,

I am connecting my colleague Kelly Zito - who covers Navajo Nation. She is can help.

Can you tell me how far downstream the water has reached at this point, and whether the contamination seems to be settling out? I'm not sure how to read the levels, or whether there's testing downstream. I'm trying to figure out how much of a threat the San Juan's water may be on the Navajo Reservation.

Thanks,

Brandon

Is there a briefing today, or can I get a brief interview? I called the teleconference number and waited but didn't hear anything.

Thanks,

Brandon Loomis
